## FULL STACK DEVELOPER

I'm a web developer with **1 year of experience** in **JavaScript, HTML, and CSS**. I have an intermediate-level grasp of **React** and **Flutter**, specializing in front-end development and cross-platform mobile app development.

## TECHNICAL SKILLS

| | | |
|---|---|---|
| **Languages** | : | JavaScript, Flutter, HTML, CSS |
| **Frameworks** | : | React.js, Bootstrap, Django, Node.js |
| **Libraries** | : | Material, Bootstrap, jQuery, React Router |
| **Databases** | : | MongoDB, PostgreSQL |
| **Dev Tools** | : | Visual Studio Code, Git, GitHub, Android Studio, Slack, WordPress |

## EXPERIENCE

**Flutter Front End**                                                                July 2023 – Present
*Stockvela*                                                      *Remote – South Africa, Cape Town*

- Developed and enhanced mobile front-ends: Created and improved mobile user interfaces using Flutter, ensuring a seamless and visually appealing experience for users.
- Implemented Stockvela's mobile app: Played a key role in the development and implementation of Stockvela's mobile application front-end using Flutter, contributing to its functionality and aesthetics.
- Responsive design: Ensured that the Stockvela mobile app's front-end design was responsive, adapting gracefully to various screen sizes and orientations.

**Front End Intern**                                                                          March 2023
*Shumba Africa*                                                                      *Harare, Zimbabwe*

- Developed and maintained web applications using HTML, CSS, and JavaScript.
- Collaborated with the development team to create responsive and user-friendly interfaces.
- Participated in code reviews and provided feedback on coding standards and best practices.

## EDUCATION

**Coursera**                                                                                          US
*IBM Full Stack Software Developer Professional Certificate*                              *2023*

**Freecodecamp**                                                                                    US
*Responsive Web Design*                                                                        *2023*

## PROJECTS

**My Portfolio**                          *HTML, Bootstrap CSS, and JavaScript*                  Source Code

- Designed and developed a clean and modern website using **HTML, CSS, and JavaScript**.
- Optimized website for **speed and user experience**.
- Utilized **responsive design** to ensure compatibility across all devices.
- Deployed on GitHub pages via GitHub Actions.

**Commerce Site**                          *React.js, CSS, JavaScript, Git/GitHub*                  Source Code

- Ensure that the website is responsive and adapts to various screen sizes and devices, including mobile phones and tablets.
- Apply CSS to style components and ensure a consistent and visually appealing design. Consider using CSS pre-processors like SASS or LESS for improved maintainability.

## CERTIFICATIONS

- Developing Front-End Apps with React
- Developing Back-End Apps with Node.js and Express
- IBM Full Stack Software Developer
- Python for Data Science, AI  Development
- Introduction to Containers w/ Docker, Kubernetes  OpenShift
- Application Development using Microservices and Serverless
- Developing AI Applications with Python and Flask
- Django Application Development with SQL and Databases
- Getting Started with Git and GitHub
- Introduction to Web Development with HTML, CSS, JavaScript
- Introduction to Cloud Computing
